

Carbon Footprint Assessment - May 2025

Company: GreenTex Manufacturing

Standard: GHG Protocol Aligned

Date Generated: 2025-06-05

Scope of Audit:

- Carbon footprint across supply chain stages

Executive Summary

This report presents the findings of the Carbon Footprint Assessment conducted for GreenTex Manufacturing in May 2025. The assessment evaluated the company's carbon footprint across various stages of its supply chain, aligning with the GHG Protocol.

Audit Findings

Based on the assessment conducted, GreenTex Manufacturing has been found **Compliant** with the GHG Protocol Aligned standard for its carbon footprint assessment.

Key Areas of Compliance:

- **Carbon Footprint Measurement:** Accurate measurement of greenhouse gas emissions.
- **Supply Chain Analysis:** Comprehensive assessment of emissions across all supply chain stages.
- **Reporting:** Transparent and accurate reporting of carbon footprint data.

Conclusion

GreenTex Manufacturing has successfully demonstrated compliance with the GHG Protocol Aligned standard for its carbon footprint assessment. The company shows a strong commitment to understanding and managing its environmental impact.
